STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The VF+ Sync Drive Out connecting kit provides the mechanical link at the drive output of the Bosch Rexroth VarioFlow plus aluminium chain conveyor system. The shaft in stainless steel 1.4301 combined with a polyamide (PA) coupling ensures a reliable connection between drive units across the full range of AL-series widths.

- Shaft in stainless steel 1.4301 - corrosion-resistant and durable
- Polyamide (PA) coupling - lightweight and dimensionally stable
- Compatible with sizes 65, 90, 120, 160, 240 and 320 mm
- Supplied not assembled - installation flexibility on site
