DESCRIPTION

The Bosch Rexroth grooved plate 30x100 M is designed for building modular plate fields of any width within the aluminium profile system. A 25 mm modular grid and 7 open size-8 slots run the full length, allowing sliding blocks, connectors and accessories to be positioned freely without drilling.

- 7 open slots (slot size 8) accept standard 8 mm connectors and sliding blocks along the entire length
- 25 mm modular dimension ensures alignment with the full Bosch Rexroth profile range
- 30x100 mm cross-section combines a low build height with a wide working surface
- Manufacturer recommendation: use 3 sliding blocks per metre of profile length for a secure joint
- Supplied as a single rod in standard length 5600 mm, packaging unit 1 piece
