

Potentialausgleichleitung für Kabelkanal - Bosch Rexroth 3842552234

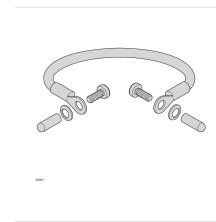

Item no. BRR-3842552234 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842552234

Potential equalizer line for use in Bosch Rexroth cable duct assembly systems. The cable features a plastic coating and the fastening material is galvanized steel. Supplied as 1 unit.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Hungary
Weight	0.04 kg
Zolltarifnummer	85444290

DESCRIPTION

The potential equalizer line 3842552234 establishes the protective conductor connection between cable ducts, ensuring electrostatic discharge continuity within Bosch Rexroth assembly line systems. The plastic-coated cable provides reliable insulation and ease of handling; galvanized steel fastening hardware offers lasting corrosion resistance.

- Plastic-coated cable for secure insulation and safe handling
- Galvanized steel fastening material - corrosion-resistant
- Compatible with Bosch Rexroth assembly technology cable duct systems
- Delivery unit: 1 piece
