DESCRIPTION

The ActiveCockpit commissioning service covers the initial professional setup and activation of the digital display and control system by a Bosch Rexroth service technician. ActiveCockpit consolidates machine data, production information and workforce communication at a single point on the shop floor.

- On-site commissioning by a certified Bosch Rexroth technician
- Configuration and adaptation to the specific production environment
- Verification of full system functionality and operational readiness
- Foundation for stable, uninterrupted continuous operation on the shop floor
