DESCRIPTION

The strut profile 30x60x60 is an angled aluminum extrusion in the Bosch Rexroth 30 mm modular system. Eight open slots on all faces allow direct connection of standard T-slot nuts and connectors from the Rexroth profile range. The anodized natural finish provides corrosion resistance and a clean appearance for machine frames, guards, and enclosures where an angled cross-section is required.

- 8 open slots - full connectivity on every profile face
- Angled profile geometry suits corner joints without additional angle brackets
- Anodized aluminum - corrosion-resistant and ready to use without further surface treatment
- Compatible with cover caps 30x30 (signal gray or black) to close unused slots cleanly
