DESCRIPTION

The Bosch Rexroth M6 cage nut is designed for attaching surface panels, cover plates, and 19" rack devices to aluminium profile systems. Integrated tension springs hold the nut in the slot and allow it to slide freely along the channel until the fastener is tightened.

- Tool-free installation: tension springs snap directly into the profile slot
- Freely adjustable position along the slot before final tightening
- Galvanized steel construction for reliable corrosion resistance
- M6 thread compatible with standard fasteners and Rexroth profile accessories
