DESCRIPTION

The Connecting Kit VF+ 160 Bridge Belt L extends the VarioFlow plus aluminium chain conveyor system with a ready-to-install bridge-belt drive connection between conveyor sections. Delivered partially assembled, the kit includes every component needed for a fast, straightforward installation.

- Size 160 mm - direct fit within the VarioFlow plus AL system family
- Partially assembled on delivery - minimises on-site assembly time
- Multi-material construction (aluminium, stainless steel 1.4301, PA, PE, ABS, PUR) for durability in demanding production environments
- Complete scope of delivery: fastening hardware, transmission, and protective cover included
