DESCRIPTION

The Connecting Kit 65+ provides a reliable joint between line sections in the VarioFlow plus aluminium chain conveyor system, size 65. The passive bridge configuration is designed specifically for static friction chains, and the partially assembled delivery reduces on-site installation time. All fastening material is included, so no supplementary order is required.

- Correct size 65 mm fit for the VarioFlow plus aluminium system
- Passive bridge function designed for static friction chains
- Partially assembled - minimises installation effort on site
- Fastening material included - no additional parts to source
- Stainless steel 1.4301 and POM construction for durability and corrosion resistance

TECHNICAL DATA

Property	Value
Size [b]	65 mm
Delivery condition	Partially assembled
Scope of delivery	Incl. fastening material
Material	Stainless steel 1.4301 / POM
Weight	0.68 kg
