

# Demontagewerkzeug für Kabelführungsprofile - Bosch Rexroth 3842558196

**Item no.** BRR-3842558196 **Manufacturer** Bosch Rexroth**Manufacturer no.** 3842558196

Hand tool designed for gentle, non-destructive opening of cable guide profiles (CGP) in Bosch Rexroth assembly systems. The profile-specific geometry protects the snap-fit geometry during repeated disassembly, reducing the risk of damage and allowing profiles to be reused.

## DESCRIPTION

The 3842558196 disassembly tool is purpose-built for Bosch Rexroth cable guide profiles (CGP). Its form-fitting geometry engages the profile precisely, opening the snap mechanism without scoring or deforming the retaining edges - a result that general tools cannot reliably achieve.

- Profile-specific tool geometry prevents surface damage and preserves snap-fit integrity
- Faster and safer than improvised tools during maintenance or line reconfiguration
- Compact hand tool with minimal workspace footprint
