## DESCRIPTION

The CGP 80 cable hole in signal gray provides a clean, secure passage for cables through the cover of Bosch Rexroth cable guide profiles. It holds leads in position and protects them from abrasion at the profile opening.

- **Organised cable routing:** Guides cables through the profile cover in a controlled path, preventing pinching or chafing.
- **Polypropylene construction:** Lightweight, chemically resistant and electrically insulating - suited to industrial assembly environments.
- **Precise fit for dimension 80:** Direct fit for cable guide profiles 40x120x120 and 120x120 6N; no modification required.
- **Pack of 10:** Supplied in economical units of 10 pieces.
