## DESCRIPTION

The profile joint 120x120 1/2 connects cable guide profiles as well as 40x120 and 40x120 5N profiles, allowing protected cable branches to be integrated cleanly into assembly lines and conveyor systems. The coated diecast aluminum construction combines high mechanical strength with low weight.

- High load capacity through diecast aluminum design
- Protected cable routing without exposed conductors
- Screw connection via central bolt M12x30-T50 (art. 3842530235) or S12x30-T50 (art. 3842530236)
- Positioning pin (required accessory) simplifies alignment during installation
