DESCRIPTION

The CGP 120 cable grommet provides a neat, protected entry point for cables passing through the cover of a cable guide profile. Compatible with Bosch Rexroth assembly technology profiles in sizes 60x120 and 120x120, it keeps the channel closed while allowing individual cables to exit in an organized manner.

- Fits cable guide profiles 60x120 and 120x120
- PP construction - lightweight, chemically resistant and electrically insulating
- Signal gray color matches Rexroth profile system aesthetics
- Pack of 10 - cost-effective for series production and plant construction
