DESCRIPTION

The Cover Rail 80 ESD closes the opening gap of installed socket strips in cable guide profiles, preventing unintended access to live parts. The two-part design - two interlocking half shells in PP - allows straightforward retrofit installation without dismantling the profile assembly.

- Closes opening gaps for socket strips with 263 mm or 404 mm length (with extension)
- Compatible with socket strips from the MPS range (Manual Production Systems catalog)
- Extendable - socket covers can be combined with the cover rail
- For installation in cable guide profiles 40x120x120 and 120x120 6N
- ESD-suitable for use in electrostatic protected areas
- Packaging unit: 10 pieces
