DESCRIPTION

The Support VF120+ STS Drive is a track-support set for the drive station of the VarioFlow plus stainless steel conveyor system, size 120 mm. Manufactured from non-rusting steel 1.4301, it is suited to production environments where corrosion resistance or hygienic washdown conditions are required. The set is delivered unassembled and includes all necessary fastening material.

- Grade 1.4301 stainless steel - resistant to corrosion and chemical cleaning agents
- Size 120 mm matches the VarioFlow plus system family
- All fastening hardware included - no separate procurement needed
- Direct integration into existing VarioFlow plus stainless steel track sections
