DESCRIPTION

The ADJ 0-5° profile connector allows stepless angle adjustment between 0 and 5° when joining aluminium profiles in the VarioFlow plus chain conveyor system. Pre-assembled and secured screws reduce installation time and eliminate the risk of missing hardware on the line. Each set contains two connectors in galvanized steel for lasting corrosion resistance.

- 0 to 5° angle range for flexible conveyor routing
- Screws pre-assembled and secured - no loose fasteners to manage
- Galvanized steel construction for reliable corrosion resistance
- Two connectors per set - one pack covers one joint
- Compatible with track widths 65, 90 and 120 mm
