## DESCRIPTION

The 34x20 PVC cable duct provides clean, safe routing of cables and wiring along assembly lines, transfer systems, and machine frames built with the Bosch Rexroth aluminium profile system. Supplied in 2000 mm lengths, it can be cut to size with standard workshop tools.

- 34 x 20 mm cross-section - sufficient capacity for multiple cable runs in a single assembly line
- PVC material - lightweight, electrically insulating, and resistant to typical machine-shop environments
- 2000 mm length - matches standard Rexroth profile spans and minimises off-cut waste
- Signal-grey finish - visually coordinated with Rexroth Series 8 aluminium profiles
