

Schnittstellenmodul AM CC EtherCAT - Bosch Rexroth 3842559446

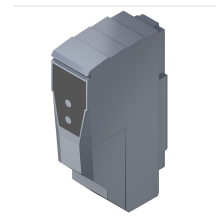

Item no. BRR-3842559446 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842559446

The AM CC EtherCAT interface module connects Bosch Rexroth assembly technology components to EtherCAT-based control networks. It enables real-time cyclic communication between the assembly carrier system and higher-level PLC or PC controllers. Suitable for automated assembly and handling systems built on the Rexroth profile system.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Weight	0.1 kg

DESCRIPTION

The AM CC EtherCAT interface module (3842559446) is a communication module for the Bosch Rexroth Assembly Technology system. It integrates assembly components into EtherCAT networks, enabling real-time cyclic data exchange with higher-level controllers. Typical applications include automated production and assembly lines using EtherCAT as the fieldbus protocol.

- EtherCAT interface for Rexroth Assembly Technology components
- Real-time communication with PLC and PC controllers
- Housing material: PVC
- Weight: approx. 0.06 kg
