

Datenträger für Werkstückpalette (POM) - Bosch Rexroth 3842559447

Item no. BRR-3842559447 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842559447

Data tag for unique identification of workpiece pallets (WT) in the Bosch Rexroth AM assembly system. The serial number is physically engraved on the side of the tag, ensuring data integrity independent of electronic readout. Fastening hardware (2x countersunk screw DIN 7991 M5 x 16) is included.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Weight	0.1 kg

DESCRIPTION

The AM IRID WP data tag provides reliable identification of workpiece pallets in the Bosch Rexroth AM modular assembly system. The stored number is physically engraved on the side of the tag, safeguarding data integrity even in the event of a system failure. The POM material delivers solid mechanical resistance in demanding production environments.

- Unique pallet identification via physically engraved serial number
- POM material: wear-resistant and lightweight
- Fastening hardware included: 2x countersunk screw DIN 7991 M5 x 16
- Compatible with AMpro software (required accessory)

Technical data

Attribute	Value
Material	POM
Fastening material	2x countersunk screw DIN 7991 M5 x 16
ESD-safe	No
Swivel-in	No
designLINE	No
Dynamic data transfer	No
Required accessories	AMpro software
Scope of delivery	Data carrier incl. fastening material

Attribute	Value
Delivery condition	Not assembled
Mass [m]	0.1
Weight	0.1 kg
