DESCRIPTION

The CONTROL-3200NSYN connecting cable (0.9 m) links economic and basic distributor variants to the higher-level controller within Bosch Rexroth CONTROL-3200NSYN assembly technology systems. The pre-assembled plug connector allows fast, tool-free connection during line setup or reconfiguration.

- Compatible with both economic and basic CONTROL-3200NSYN distributor variants
- Pre-assembled plug connector for quick, reliable, tool-free installation
- Lightweight at 0.04 kg for easy handling during assembly system builds
