

Steckverbindung für Synchronisationskabel - Bosch Rexroth 3842559943

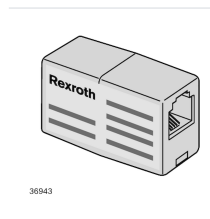

Item no. BRR-3842559943 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842559943

Electrical plug connector for the synchronisation cable in Bosch Rexroth conveyor and transfer systems. Connects distributor units (economic and basic types) to the system cable for coordinated operation of adjacent modules. Weight: 0.01 kg.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Weight	0.01 kg
Zolltarifnummer	85366990

DESCRIPTION

The plug connector 3842559943 provides the electrical interface between the synchronisation cable and the distributor unit in Bosch Rexroth assembly line systems. Designed as the cable-end connector (position D), it mates with the connecting cable (position C) and is compatible with both the economic distributor (position A) and the basic distributor (position B).

- Cable-end connector for quick, reliable electrical connection
- Compatible with economic distributor (A) and basic distributor (B)
- Low mass of 0.01 kg - negligible load contribution

Technical data

Property	Value
Article number	3842559943
Type	Plug connector EL, sync. cable
System	Bosch Rexroth assembly / transfer system
Function	Electrical connection between synchronisation cable and distributor
Weight	0.01 kg
