ESD safe

DESCRIPTION

The Bosch Rexroth joint 40x40 (3842562087) provides articulated connections in aluminium profile assemblies with a 40 mm modular dimension and profile slot 10. The locking mechanism holds the chosen angle firmly in place without additional brackets or rework. ESD-rated for use in electrostatic-sensitive production and assembly environments.

- Lockable: steplessly adjustable angle, securely fixed once set
- Ready to install: supplied with 2x flange head screw M8x16, 2x T-nut groove 10 M8, 2x screw S12x30
- ESD-rated for electrostatic-protected workplaces and assembly lines
- Durable diecast zinc body, fastening material in galvanized steel
- Compatible with all Bosch Rexroth aluminium profiles with 40 mm modular dimension and slot 10
