## DESCRIPTION

The FSK M12 DQ E10 sensor cable is a ready-to-connect cable for sensors in Bosch Rexroth assembly and transfer systems. Supplied fully assembled with M12 connector and socket at both ends, it eliminates on-site termination and reduces installation time.

- Cable length 10,000 mm for flexible routing in machine installations
- M12 connector and socket pre-fitted at both ends
- Plug-and-play installation - no crimping or wiring required on site
