DESCRIPTION

The Bracket fastening kit provides secure, swivel-mounted installation of SL LED Basic system lights on a strut extension, enabling flexible lamp alignment at the workstation. Used together with the Plate or Bracket fastening kit, it meets the requirements for ESD workstations.

- Mounts on strut extension - swivel joint allows individual lamp orientation
- Compatible with SL 24 basic (two outputs, through-wiring) and SL 12 basic (one output)
- ESD-suitable in combination with Plate or Bracket fastening kit
- Works with the DIM box power supply: stepless dimming 0-100 % via rotary control
- DC lamp connection via GST mini; mains connection of DIM box via GST (with mains cable and connecting plug)
