## DESCRIPTION

This housing element (HP2 protective cover, HUB375) is a dedicated add-on component for the Bosch Rexroth HP2 lift positioning unit, part of the Assembly Technology product range. At 562 mm in length, it encloses and protects the internal components of the lift unit against dust, swarf, and mechanical impact in production environments.

- Length 562 mm - designed to fit the HP2 lift positioning unit precisely
- Protects internal components from dust, chips, and mechanical contact
- Original Bosch Rexroth part for reliable fit and long service life
- Weight: 6.3 kg
