DESCRIPTION

LASERLOC SW Client is the workstation-side application for the Bosch Rexroth LASERLOC laser projection system. Running on the operator PC, it connects to the central LASERLOC server and presents the guided assembly sequence - highlighting each joining position via laser projection to reduce errors and ensure correct assembly order.

- Client-side interface for the LASERLOC laser-guided assembly system
- Communicates with the LASERLOC server for process control and data management
- Supports sequenced, error-free manual assembly through real-time laser projection
- Compatible with Bosch Rexroth MTpro and ActiveCockpit production environments
