

LASERLOC SW Server - Software für Laserpositionierungssysteme - Bosch Rexroth 3842564009

Item no. BRR-3842564009 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842564009

LASERLOC SW Server is the server software for Bosch Rexroth laser positioning systems. It provides centralised management and control of laser projection devices in industrial assembly environments. Designed for applications where precise, tool-free position guidance via laser projection is required.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Germany
Weight	0.1 kg
Zolltarifnummer	49011000

DESCRIPTION

LASERLOC SW Server forms the software foundation for operating Bosch Rexroth laser positioning systems in industrial assembly. The server software handles central coordination of connected laser devices and provides the communication infrastructure for accurate, non-contact position guidance.

- **Centralised server management:** coordinates multiple laser positioning units through a single software platform
- **Assembly process integration:** supports error-free component positioning without physical jigs or templates
- **System compatibility:** designed for use within the Bosch Rexroth LASERLOC product family
