DESCRIPTION

The Protective Conductor CONNECT N10 provides reliable equipotential bonding and grounding for aluminium profile workstation systems. Supplied as a complete set with fixing hardware for slot 10, it enables a code-compliant protective conductor connection for cross-sections up to 100 mm².

- Fits slot 10 of the Bosch Rexroth CONNECT profile system
- Conductor cross-section up to 100 mm² - suitable for high leakage-current applications
- Galvanized steel construction - corrosion-resistant for industrial environments
- Complete set including all fixing hardware - no additional accessories required
