DESCRIPTION

The Slider N10 is a compact POM element for profile slot 10 in Bosch Rexroth aluminium profile systems. It provides a straightforward, economical solution for sliding and lifting door constructions with consistent, low-friction movement and high functional reliability.

- Low friction by design - POM material ensures smooth, reliable operation even under frequent use
- Fits profile slot 10 - compatible with the Bosch Rexroth aluminium profile system
- Cost-effective approach to sliding and lifting door panels in machine guarding and enclosures
- Signal grey RAL 7004 finish - blends naturally with standard profile assemblies
- Packaging unit of 10 pieces - practical quantity for initial builds and replacement stock
