DESCRIPTION

The D28x55 strut profile is part of the Bosch Rexroth EcoShape round-tube system, designed as a bracing and structural element for manual assembly lines, production workstations, and material-flow frames. At 6070 mm, it supports large-span constructions without intermediate joints.

- Fully compatible with all EcoShape connectors, joints, and base elements
- D28x55 cross-section provides high dimensional stability across long spans
- Supplied as a single rod in standard length - no further cutting or preparation required
- Lightweight aluminium construction simplifies handling and reconfiguration
