

Strebenprofil 40x80L, Nut 12, Länge 5600 mm - Bosch Rexroth 3842564741

Item no. BRR-3842564741

Manufacturer Bosch Rexroth

Aluminium strut profile in the 40x80L cross-section with a 12 mm slot and a length of 5600 mm, part of the Bosch Rexroth structural framing system series 40. The asymmetric profile delivers high bending stiffness along the main load axis at low weight, making it well suited for load-bearing frames, machine guards, and workstation structures. Compatible with all series 40 connectors and accessories.

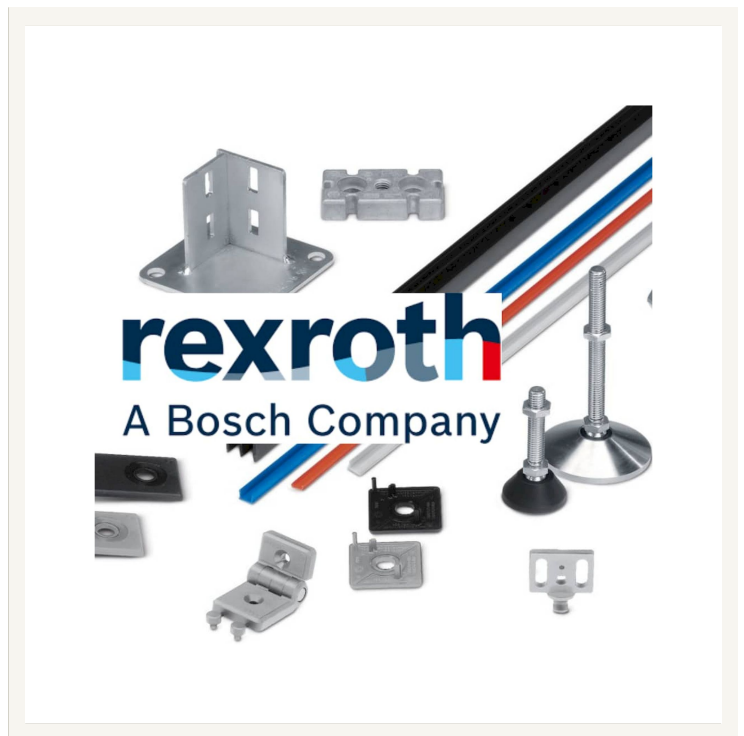

TECHNICAL DATA

Country of Manufacture **China**

Hinweis **Gemäß der aktuellen Preisstruktur werden für Bestellungen von Profilen mit einer Länge von 1500 mm zusätzliche Kosten in Höhe von 80,00 Euro berechnet.**

Weight **0.1 kg**

Zolltarifnummer **76042100**

DESCRIPTION

The 40x80L strut profile is an asymmetric aluminium extrusion combining two chambers of different widths with a continuous 12 mm system slot on all four sides. At 5600 mm, the bar length allows cost-efficient cutting for large assemblies with minimal offcut waste.

- Asymmetric 40x80 mm cross-section (L-form) for high bending stiffness in the primary load direction
- 12 mm system slot on all sides - accepts standard T-slot nuts, brackets, and connectors from the series 40 range
- 5600 mm length suits large enclosures, conveyor frames, and industrial workstations
- Anodised aluminium surface: corrosion-resistant, clean, and low-maintenance

TECHNICAL DATA

Property	Value
Profile type	Strut profile (asymmetric)
Cross-section	40 x 80 mm (L-form)
Slot width	12 mm
Length	5600 mm
Material	Aluminium, anodised

Property	Value
Profile system	Bosch Rexroth structural framing series 40
Article number	3842564741
