

Kugelrolle EcoFlow Plastic, POM, Fmax 300 N - Bosch Rexroth 3842564744

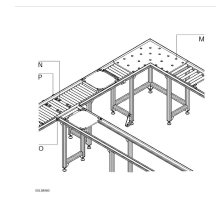

Item no. BRR-3842564744 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842564744

Plastic ball transfer unit for the Bosch Rexroth EcoFlow conveyor and linking system. POM housing and ball support up to 300 N while keeping component weight at 0.24 kg, enabling smooth workpiece redirection at transfer points in manual assembly lines. Supplied in packs of 20.

TECHNICAL DATA

Article authenticity	Original product
Colour	White
Condition of article	New
Country of Manufacture	Germany
Weight	0.24 kg
Zolltarifnummer	84313900

DESCRIPTION

The 3842564744 ball transfer unit is a spare and wear part for the EcoFlow linking system, guiding workpiece carriers or components through direction changes and handover points with minimal friction. Both housing and ball are made entirely from POM plastic, keeping weight low at 0.24 kg and eliminating metal-on-metal contact in the conveyor track.

- Maximum load capacity 300 N - suitable for medium-weight carriers in the EcoFlow system
- Full POM construction - lightweight, wear-resistant, and corrosion-free
- White colour - quick visual inspection and part identification on the line
- Pack of 20 - practical for stock replenishment and routine wear-part replacement
