

Netzkabel GB-HD-GST 3,5 m orange PUR - Bosch Rexroth 3842564755

Item no. BRR-3842564755 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842564755

Flexible mains cable in PUR (H07BQ-F) at 3.5 m length, designed to connect workstation components in Bosch Rexroth manual assembly systems to the power supply. The orange sheath follows the Bosch Rexroth workstation colour-coding convention for straightforward identification on the line. PUR construction delivers the abrasion resistance and oil tolerance required in industrial assembly environments.

DESCRIPTION

The GB-HD-GST mains cable at 3.5 m connects Bosch Rexroth assembly technology workstation components to mains power. A PUR outer sheath to H07BQ-F provides the flexibility, abrasion resistance, and resistance to oils and fuels that industrial assembly workplaces demand every day. The orange colour follows the Bosch Rexroth workstation system standard for clear visual identification.

- PUR sheath (H07BQ-F): high flexibility, oil and fuel resistance, mechanical durability
- 3.5 m length: sufficient reach for typical workstation layouts in manual assembly lines
- Orange colour: system-standard colour coding per Bosch Rexroth assembly system convention
- 0.5 kg weight: light enough for free cable routing without additional support
