

Lokalisierungs-Software LOCATOR SERVER 1.3 - Bosch Rexroth 3842564886

Item no. BRR-3842564886 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842564886

LOCATOR SERVER 1.3 is a Bosch Rexroth server software licence for position-based control of assembly tools and stations in networked manufacturing environments. It acts as the central communication layer between LOCATOR-enabled tools and higher-level control or MES systems. Typical applications include automated assembly and tightening processes in industrial production.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New

DESCRIPTION

The LOCATOR SERVER 1.3 from Bosch Rexroth is a server licence that manages and coordinates LOCATOR-enabled tools and stations across networked assembly environments. It provides the central communication layer between assembly tools and higher-level control or MES systems, enabling position-based process control.

- Centralised management of multiple LOCATOR-enabled components over a network
- Precise position detection for location-accurate control of assembly processes
- Integration into existing manufacturing and quality assurance environments
