

# Stellungsabfrage VE 2/D-80 - Bosch Rexroth 3842564903

**Item no.** BRR-3842564903 **Manufacturer** Bosch Rexroth**Manufacturer no.** 3842564903

Position inquiry module for the Bosch Rexroth VE 2/D-80 valve series. The unit detects the valve position and reliably reports the switching state to the upstream controller. Designed for integration into assembly lines and linked production systems.

## TECHNICAL DATA

Article authenticity	<b>Original product</b>
Condition of article	<b>New</b>
Weight	<b>0.1 kg</b>
Zolltarifnummer	<b>84313900</b>

## DESCRIPTION

The position inquiry unit VE 2/D-80 is a feedback module from the Bosch Rexroth assembly technology system. It monitors the end position of the associated valve and transmits the switching signal to the controller - enabling reliable process monitoring without additional sensors.

- Direct feedback of valve position to the machine controller
- Compact design, integrates into existing VE 2/D-80 installations
- Weight: 0.1 kg
