

Software LOCATOR 1.5 für Montageplanung und Schrauberpositionierung - Bosch Rexroth 3842567626

Item no. BRR-3842567626 **Manufacturer** Bosch Rexroth

Manufacturer no. 3842567626

LOCATOR 1.5 is a Bosch Rexroth planning software for precise positioning and management of tightening systems in industrial assembly lines. It supports layout planning, tool assignment, and process optimisation for screwdriving applications. Compatible with Rexroth tightening systems of the corresponding generation.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Germany
Weight	0.1 kg
Zolltarifnummer	49011000

DESCRIPTION

LOCATOR 1.5 from Bosch Rexroth is a planning and management software for tightening systems used in industrial assembly. It enables graphical layout planning of assembly workstations, assignment of tightening tools to work cells, and centralised management of tightening programs and process parameters.

- Graphical layout planning for tightening system workstations
- Centralised management of tool assignments and tightening programs
- Supports process optimisation in linked assembly lines
- Compatible with Rexroth tightening systems of the corresponding generation
