DESCRIPTION

The 80x80L 4N strut profile is an aluminium structural section from the Bosch Rexroth modular building system, intended for diagonal bracing and stiffening of frames and assembly lines built on the 80 mm profile series. The 4-slot (4N) geometry provides connection points on all faces, compatible with the full range of Bosch Rexroth system accessories.

- Compatible with Bosch Rexroth aluminium profile system series 80
- 4-slot cross-section for multi-directional connections and add-on components
- Suitable for diagonal bracing, enclosures, and workstation frames
- System-compatible profile enabling fast, tool-free assembly with standard connectors
