### DESCRIPTION

The strut profile 45x90x90L 4N is an aluminium structural profile from the Bosch Rexroth assembly and support system. Its 90 x 90 mm cross-section with four peripheral slots makes it a rigid structural element for frames, protective enclosures, workstations and conveyor system components.

- **45 mm nominal size:** fully compatible with the widely used Rexroth 45 system and its associated accessories
- **4-slot geometry:** four slots allow flexible connections on all faces without additional machining
- **Aluminium construction:** lightweight, corrosion-resistant and suited to continuous industrial use
- **System-compatible:** direct insertion of Rexroth connectors and standard brackets without modification
