Zolltarifnummer	76042100

DESCRIPTION

The 120x120 mm function-integrated profile keeps wiring and hoses organized within Bosch Rexroth assembly line systems. The usable interior cavity routes cables and hoses out of sight, while the closed exterior maintains a clean line appearance. The two-part construction - profile body and cover - features a hinge function on both sides of the cover for quick, tool-free access. A concealed 10 mm groove accommodates socket strips or installation elements; dedicated screw holes allow cover plate mounting. Built-in mounts accept dividing strips, grounding cables, and potential equalizer lines.

- Integrated interior cavity for structured cable and hose routing
- Cover with bilateral hinge function - tool-free access from either side
- Concealed 10 mm groove for socket strips and installation elements
- M12 tapping in all core holes - compatible with Bosch Rexroth transfer systems
- Integrated mount for potential equalizer and grounding cables
- Flexible cut-to-length: 110 mm to 6000 mm

Technical data

Parameter	Value
Cross-section	120x120 mm
Design	2-part (profile and cover)
Open slots	2
Profile adaptation	M12 in all core holes
Min. length	110 mm
Max. length	6000 mm
Delivery unit	1 piece
Material	Aluminium, anodized
Weight	0.1 kg
