

Wellendichtring C1-1002-N3571 - Bosch Rexroth 3842510788

Item no. BRR-3842510788

Manufacturer Bosch Rexroth

Original Bosch Rexroth shaft sealing ring for assembly and transfer systems, type C1-1002-N3571. Seals rotating shafts against lubricant loss and ingress of contaminants, protecting bearings and drive components. Designed as a direct replacement part for Rexroth linear and transfer modules.

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Germany**

Weight **0.0099 kg**

DESCRIPTION

The shaft sealing ring 3842510788 (type C1-1002-N3571) is a genuine Bosch Rexroth spare part for assembly and transfer systems. It seals rotating or oscillating shafts to prevent lubricant escape and keep dust, chips and other contaminants away from bearings and drive elements.

- **Genuine Rexroth spare part** - ensures correct fit and operational reliability without modification
- **Prevents lubricant loss** and ingress of particles into sensitive bearing and drive areas
- **Low weight** (approx. 10 g) - easy to stock and quick to install
