DESCRIPTION

The EG SGF 6417 compartment divider set from Auer Packaging splits Euro containers with a 60 x 40 cm base into four separate sections. The 14 cm lengthwise and crosswise dividers keep small parts apart and are sized precisely for the recommended EG 64/17 container.

BENEFITS

- One lengthwise and one crosswise divider create four equal sections inside the container.
- The 14 cm divider height uses the full internal depth of the EG 64/17 container.
- Matched to the larger 60 x 40 cm base, so the layout stays in place without slipping.
- At 401 g it is light, quick to fit and easy to rearrange when needed.
