

Euro container with coupling system 80 x 60 x 12 cm 45 litres - Auer EG VL 86/12

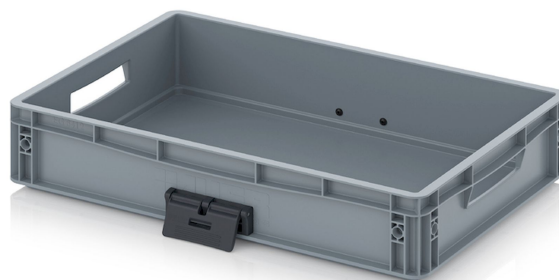

Item no. EG VL 86/12

Manufacturer Auer

Closed Euro container with an 80 x 60 cm footprint and 12 cm height for 45 litres. The side coupling system links it securely to transport dollies and further containers. Made of PP with a reinforced, closed base for hard warehouse duty.

TECHNICAL DATA

Weight

3.15 kg

DESCRIPTION

The EG VL 86/12 Euro container holds 45 litres on an 80 x 60 cm footprint at just 12 cm height, making it suited to flat, heavy loads. The coupling system moulded into the long side locks the container firmly to Auer transport dollies and other VL containers.

BENEFITS

- Coupling system on the long side secures container and dolly against sliding.
- Reinforced, closed base withstands heavy flat loads.
- 45 litres on the DIN Euro size 80 x 60 cm fit standard racking and conveyors.
- Closed side walls protect the contents from dust and spillage.
- PP build is impact resistant and stands up to many operating media.

TECHNICAL DATA

- External dimensions L x W x H: 80 x 60 x 12 cm
- Internal dimensions L x W x H: 76.7 x 56.7 x 10.5 cm
- Usable inner height when stacked: 9.2 cm
- Stacking height: 10.8 cm
- Volume: 45 litres
- Side design: closed
- Base design: reinforced, closed

- Coupling system: on the long side
- Handles on end face: open
- Handles on long side: closed
- Consists of: 1 x EG 86/12 and 4 x EG V 86
- Material: PP
- Colour: silver grey similar to RAL 7001
- Weight: 3.15 kg

APPLICATIONS

For order picking, in-plant transport and storage of flat, heavy parts, especially together with transport dollies of the coupling range.

Slight colour variation cannot be ruled out due to the raw material.
