

Euro container closed with linking system 80 x 60 x 22 cm - Auer EG VL 86/22 HG

Item no. EG VL 86/22 HG

Manufacturer Auer

Closed euro container made of PP with a factory-fitted linking system on the long side, outer size 80 x 60 x 22 cm and 87 litres usable volume. The reinforced closed base and the 800 x 600 mm footprint allow shift-proof stacking and clean in-house transport on a euro base.

TECHNICAL DATA

Weight

4.25 kg

DESCRIPTION

The Auer EG VL 86/22 HG is a closed euro container made of polypropylene with a factory-fitted linking system on the long side. With an outer size of 80 x 60 x 22 cm it holds 87 litres and stacks without the containers drifting sideways, because the linking system locks stacked units together.

BENEFITS

- Linking system on the long side keeps stacked containers positively joined and secures the load unit
- Reinforced closed base holds bulk goods and small parts cleanly
- Euro footprint 800 x 600 mm fits euro pallets, shelving and conveyor systems
- Usable volume of 87 litres with a usable inner height in the stack of 19.2 cm
- Polypropylene is impact resistant, resistant to alkalis and acids and easy to clean

TECHNICAL DATA

- Outer dimensions L x W x H: 80 x 60 x 22 cm
- Inner dimensions L x W x H: 76.7 x 56.7 x 20.5 cm
- Usable inner height in the stack: 19.2 cm
- Stacking height: 20.8 cm
- Volume: 87 litres
- Side design: closed

- Base design: reinforced, closed
- Linking system: long side
- Front side hand grips: closed
- Long side hand grips: closed
- Scope of delivery: 1x EG 86/22 HG and 4x linking element EG V 86
- Material: polypropylene (PP)
- Weight: 4.25 kg
- Colour: silver grey similar to RAL 7001

Slight colour variations cannot be avoided for material reasons.

APPLICATIONS

Suitable for storage, in-house transport and order picking of components, spare parts and production material. The linking system joins several containers into a stable, tip-proof stacking unit.
