

Snap-on Lid for KLT Container Footprint 300 x 200 mm - Auer KLT-D 35

Item no. KLT-D 35

Manufacturer Auer

Snap-on lid made of polypropylene for KLT containers with a 300 x 200 mm footprint. It protects contents against dust and dirt and supports stable stacking in storage and transport. Colour silver grey similar to RAL 7001.

TECHNICAL DATA

Weight

0.086 kg

DESCRIPTION

The snap-on lid closes KLT containers with a 300 x 200 mm footprint and protects contents against dust, splash water and access. Made of polypropylene, it supports clean stacking of containers in storage and dispatch.

BENEFITS

- Precise fit for KLT containers with a 300 x 200 mm footprint
- Polypropylene is durable, chemical-resistant and easy to clean
- Protects contents against dust and soiling
- Low dead weight of just 86 g

TECHNICAL DATA

- Suitable for footprint: 300 x 200 mm
- Material: PP (polypropylene)
- Colour: silver grey similar to RAL 7001
- Weight: 0.086 kg

APPLICATIONS

For protected storage and transport of small load carriers in production, order picking and dispatch.
