

Maxi HD Transport Dolly with Interlocking System 82 x 62 cm, rubber wheels - Auer RO V 86.6 HD GU FA.L-3020

Item no. RO V 86.6 HD GU FA.L-3020

Manufacturer Auer

The Maxi HD transport dolly holds Euro containers with an 80 x 60 cm base and links several dollies into a train via the interlocking system. The ABS body carries up to 250 kg and runs on rubber in traffic red. The thread guard keeps threads and film out of the castors.

TECHNICAL DATA

Weight	8.36 kg
--------	---------

DESCRIPTION

The Auer Maxi HD transport dolly moves Euro containers with an 80 x 60 cm footprint through the warehouse and production. The 82 x 62 cm outer dimensions hold the container precisely, and the interlocking system couples several dollies into a stable transport train. Load capacity is 250 kg.

BENEFITS

- Interlocking system couples several dollies into a tugger train and shortens routes
- Load capacity of 250 kg for heavily loaded containers
- 6 swivel castors with thread guard provide quiet running that protects sensitive floors
- Body made of stable ABS, Rubber wheels absorb shocks and protect the floor surface
- Thread guard stops threads and film from winding into the castors
- Castor diameter of 12.5 cm rolls easily over joints and thresholds

TECHNICAL DATA

- Outer dimensions L x W: 82 x 62 cm
- Castor configuration: 6 swivel castors with thread guard
- Body material: ABS
- Castor material: rubber
- Castor diameter: 12.5 cm
- Load capacity: 250 kg

- Weight: 8.36 kg
- Colour: traffic red similar to RAL 3020
- Interlocking system: Interlocking system on the long side

APPLICATIONS

For in-house transport of Euro containers with an 80 x 60 cm base in order picking, assembly and dispatch. Several coupled dollies form a tugger train for recurring transport routes.
