DESCRIPTION

Optimized for industrial applications, the WAVE LED magnifier luminaire from Vision Luxo provides excellent, shadow-free 3D illumination to simplify manufacturing, quality assurance, manipulation and general inspection tasks. WAVE LED offers shadow-free illumination and three-dimensional enlargement through one-sided controllable light from the left and/or right side. The three-dimensional function is particularly useful for inspections and rework on printed circuit boards and similar sensitive objects.

- Selectable left/right illumination
- 3D-illumination with controllable left/right illumination
- Efficient, dimmable three-step illumination of right and left LEDs
- LED UV version for special industrial areas (ultraviolet)
- Selection of secondary attachment lenses to increase magnification up to a total of 15 diopters
- High-quality crown glass lens for maximum clarity, precision and comfort.
- High quality flexible, self-balancing arms with table clamp
- Automatic shutdown function for energy efficiency
- 3-step dimmer: 0-50-100%
- Colour rendering index (CRI): Ra 80
