DESCRIPTION

The new OPTICLUX hand magnifier luminaire from Waldmann provides support for demanding visual tasks. This is ensured by the large dimmable light field in daylight quality, the excellent color rendering properties and the long battery life. Dermatologists and veterinarians can look forward to the powerful Wood light, which is available in addition to the daylight mode. But also users in other medical areas or in industry will find the new OPTICLUX hand magnifier light to make their everyday life easier.

- Colour temperature daylight white 6 500 K *
- Energy efficiency class A+
- Acrylic glass lens with 3.5 diopters
- Colour rendering Ra = 95
- Homogeneous and very bright light field * (8 000 lx / 0.15 m)
