

LED Machine Light 24 V, Ø 35 mm, IP 67, with 4-pin M12 connector - Starlight IL300-24V

Item no. STL-100-009363

Manufacturer Starlight

Rugged LED machine light IL300-24V for use on machines and equipment. With IP 67 protection, borosilicate protective glass and a 4-pin M12 connector it is dust-tight, splash-proof and quick to connect.

TECHNICAL DATA

Weight **0.1 kg**

DESCRIPTION

The IL300-24V LED machine light from Starlight delivers reliable illumination right at the machine in a compact aluminium housing (Ø 35 mm). Thanks to IP 67 protection and borosilicate protective glass it withstands dust, chips and splash water.

BENEFITS

- IP 67 protection - dust-tight and protected against water jets
- Break-resistant borosilicate protective glass
- Quick connection via 4-pin M12 connector
- Compact, rugged anodised aluminium housing
- 24 V operation for industrial use

TECHNICAL DATA

Model	IL300-24V
Length	93.4 mm
Diameter	35 mm
Connection	M12 connector (4-pin)
Protection rating	IP 67
Protective glass	borosilicate glass

Protection class	3
Material	anodised aluminium
Colour	titanium / black
Manufacturer part no.	100-009363
ESD safe	No

APPLICATIONS

For illumination on machine tools, in production equipment, during component inspection and in harsh industrial environments.
