

LED Machine Light Flex Arm 450 mm, IP 65, M12 connector 4-pin - Starlight IL1300-F

Item no. STL-100-011707

Manufacturer Starlight

IL1300-F LED machine light with a flexible 450 mm arm and 4-pin M12 connector. IP 65 protection and a borosilicate cover glass make the light rugged for use on machines and equipment.

TECHNICAL DATA

Weight **0.1 kg**

DESCRIPTION

The IL1300-F LED machine light is a rugged work light with a flexible 450 mm arm and a 4-pin M12 connector. With IP 65 protection and a borosilicate cover glass it is built for harsh machine environments.

BENEFITS

- Flexible flex arm 450 mm long for free positioning
- IP 65 protection, dust-tight and jet-water protected
- Borosilicate cover glass against mechanical load
- Connection via 4-pin M12 connector
- Anodised aluminium housing, 60 mm diameter

TECHNICAL DATA

Model	IL1300-F
Arm length	450 mm
Length	138 mm
Diameter	60 mm
Protection rating	IP 65
Cover glass	borosilicate glass

Protection class	3
Connection	M12 connector (4-pin)
Material	anodised aluminium
Manufacturer colour	titanium
Manufacturer part no.	100-011707
ESD safe	no

APPLICATIONS

The machine light suits illumination of machine tools, assembly and test stations, and inspection and rework in production.
